Make the smart move to file and pay your taxes

New Straits Times, Malaysia

KUALA LUMPUR

THE Inland Revenue Board is calling on taxpayers to submit their income tax return forms and pay their taxes on time to avoid any penalties.

Taxpayers can do so via the easy, accurate and secure facility under its MyTax application.

What is Let's Click HASiL?

It is a programme to encourage taxpayers to submit their tax returns and make tax payments.

MyTax is the primary access to ezHASiL services such as e-Filing, e-Register, ByrHASiL and many more, that can be accessed by all taxpayers.

The objective of the programme is to:

- Encourage taxpayers to file their taxes electronically and correctly and accurately;

- Encourage tax payments to be made electronically to save time and cost;

- Encourage taxpayers to use the online services provided by the Inland Revenue Board

- Provide tax advisory services to taxpayers through briefings held virtually in accordance with the new norms recommended by the government.

Taxpayers can get the latest information through the eduZONE quick link at www.hasil.gov.my

Physical Form Submission Date

The Let's Click HASiL programme runs from March 1 to April 30 for the submission of Form BE (Individuals who do not carry on business). The submission of Form B (Individuals who carry on business) is until June 30.

However, to encourage taxpayers to use the online service, e-BE submission by e-Filing allows you to report on or before May 15, as opposed to physical

form submission which is due on April 30.

e-Filing also allows you to report e-B on or before July 15, as opposed to paper form where the submission deadline is June 30.

Refunds

Upon completion of e-Filing, taxpayers can look forward to refunds. For individuals who do not run a business, or those who have employment income, their employer usually makes a Monthly Tax Deduction (MTD) on the salary they receive each month.

The MTD aims to reduce the burden on employees and they do not need to pay their taxes all at once when the actual taxes are calculated.

Taxpayers will receive a refund if the amount of tax paid in advance through the MTD exceeds the actual tax imposed on them. This occurs when taking into account the tax relief or rebate claimed when filing out e-Filing.

The use of e-Filing to report income gives you the advantage of receiving a refund within 30 working days compared to 90 working days for the physical form submission by post or hand delivery.

ezHASiL — Simplify your taxes

The ezHASiL service makes it easy for taxpayers to manage their taxes online. Popular services that are often used are e-Filing, e-Daftar [e-Register], e-Kemaskini [e-Update], e-Lejar

[e-Ledger] and ByrHASiL. With the ezHASiL facility, taxpayers now no longer need to go to their nearest Inland Revenue Board branch for those services.

Beginning last year, the Inland Revenue Board will no longer provide an e-Filing counter at its branches. This is due to the new norms set by the government to curb the spread of the Covid-19 pandemic.

Taxpayers can easily access the e-Filing system through the IRB's official portal at www.hasil.gov.my > MyTax > ezHASiL Services > e-Filing from wherever they are.

Before using e-Filing, make sure you have registered as a taxpayer. Those who have not registered can do so via e-Daftar. Next, get the e-Filing PIN number

through the IRB Customer Feedback Form at <https://maklumbalaspelanggan.hasil.gov.my/MaklumBalas/ms-MY/>.

Taxpayers can start filing their income using e-Filing once they receive their PIN number and proceed to make payments via ByrHASiL. Assessment and payment details can be checked via e-Lejar and taxpayers update their profiles via e-Kemaskini.

MyTax — Tax Information Gateway

All ezHASiL facilities can be accessed through the rebranded website at <https://mytax.hasil.gov.my/>

MyTax is an initiative of the IRB to encourage Malaysians to use electronic applications and services to facilitate and educate the community towards the use of technology.

MyTax offers a modern dashboard display and is a gateway to the many online services provided by the IRB. Taxpayers can view their total tax contributions for the last three years and also review information related to travel restrictions.

MyTax also displays the income tax refund process until the refund stage is successfully credited to the taxpayer's account depending on the data submitted when submitting the e-Form for the latest year of assessment. Other information displayed in MyTax is the MTD record for two years of assessment. In short, MyTax provides information at your fingertips.

File and pay your taxes

With these facilities, there is no reason for taxpayers not to file and pay their income tax.

Any inquiries can be made through the Customer Feedback Form or contact the HASiL Care Line at 03-8911 1000. Further tax information can be obtained at www.hasil.gov.my
